

# **DIAMOND DOGS**

**- ARNAV TULI  
XII – A**

# **ACKNOWLEDGMENT**

This project would not have been possible without the support and guidance of many individuals and organizations. I would like to extend my sincere thanks to all of them.

I am highly indebted to our Computer Science teacher **Ms. Neelam** for her support and constant supervision as well as for providing necessary information regarding the project.

I would like to thank my partner **Pranjal Soni** for his complete dedication and support in completion of the project.

My sincere thanks and appreciations to all other people, especially those sitting at **Konami, Japan** for making such a wonderful game that I enjoyed playing ever since it came out in 2015, and ultimately inspired me and my teammate to make our project on it. **Special thanks to Mr. Hideo Kojima, Director – Metal Gear Solid V: The Phantom Pain.**

**-Arnav Tuli**

# ABOUT THE PROJECT

**Diamond Dogs** is a private military organization that is run by **Venom Snake** (or just Snake a.k.a *Arnav Tuli*) and his old friend **Kazuhira Miller** (a.k.a *Pranjal Soni*).

*Snake after destruction of the Mother Base, 2015*

The organization was formed as a result of devastation of old **Mother Base** in **2015** by **Cipher**. As a result, the main aim of this organization is to build up resources and ammunition so that they can take revenge from

**Cipher**, as is known from following statement:

*Kazuhira, 2018*

*“We pull in money, recruits, just to combat Cipher ...Rubbing our noses in bloody battlefield dirt, all for revenge. The world calls for wetwork, and we answer. No greater good, no just cause.”*

*— Kazuhira Miller, 2018*

Recently the mother base of the organization was shifted to a quiet region situated in “**Seychelles**”, with an aim to operate **freely** and **without hindrances** put up by **governments**.

*Snake and Kazuhira Miller at Mother base, 2018*

For proper and smooth functioning of an organization like this, **a well-managed database** is also needed that will keep track of recruits, applicants and base whereabouts.

This project is just a consequence of this desire and serves to provide a database for the organization that will take care of all the **basic facilities** of the **Mother Base**.

*“Diamonds are hard, they don't burn. They are to remain forever!”*

- *Snake, 2018*

# PROJECT CODE

Project Code can be divided into three categories: -

- **Staff Class:** This includes *staff.hpp* and *staff.cpp* files.
- **Personnel Class:** This includes *personnel.hpp* and *personnel.cpp* files.
- **Main Program Code (Driver):** This only contains *main.cpp*.

Binary Files used for data storage: -

- a) personnel.dat
- b) staff.dat
- c) apply.dat
- d) complaint.dat

P.T.O

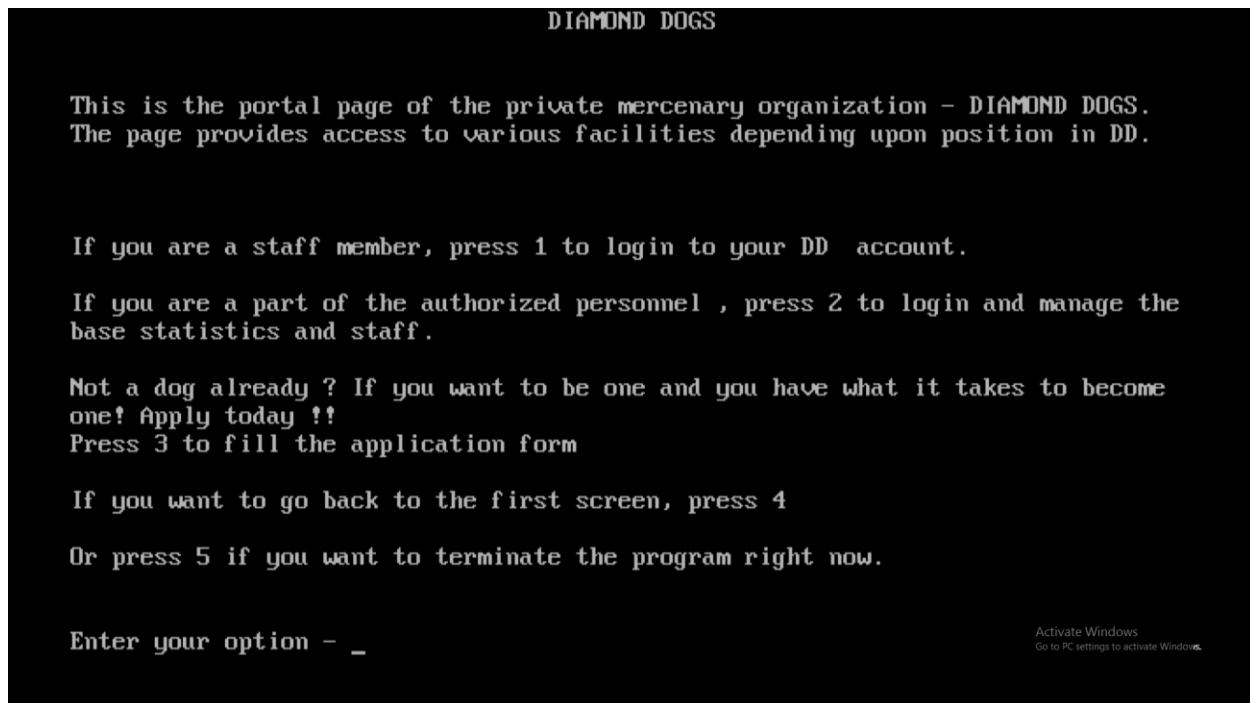

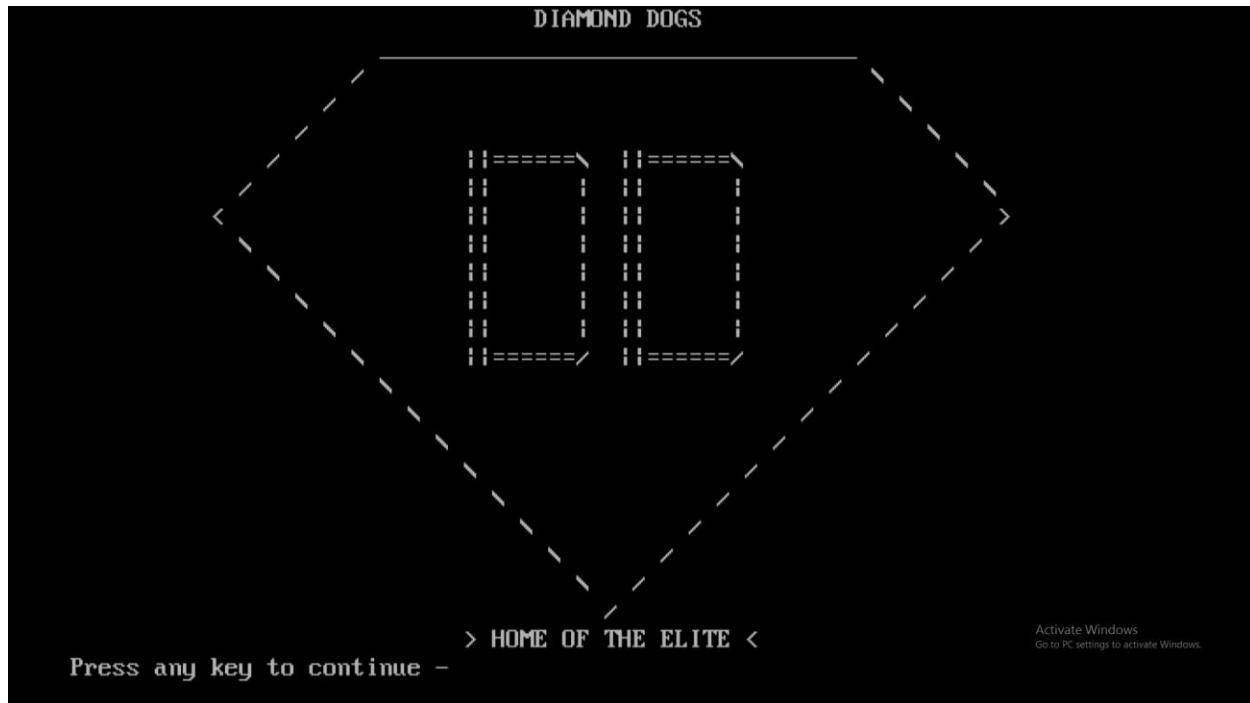

# OUTPUT

The output is displayed for **almost\*** all the possible combinations that can occur when you run *main.cpp*.

They are laid down in a sequential manner so that comprehending the outputs and checking for their legibility is easy.

(The output starts from the first page, i.e. cover page for Diamond Dogs!)

P.T.O
